Quickly Relieves**Without Distress**

The congestion of waste and refuse from the stomach, fermenting in the bowels, generates poisonous gases that occasion distress and invite serious illness. Health and comfort demand that this congestion be speedily relieved and the foul mass expelled.

The well-founded objection must be made to the violence of cathartics and purgative agents is overcome by using the combination of simple laxative herbs with pepsin that is sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. A dose at night brings relief next morning, without discomfort or inconvenience. A free trial bottle can be obtained by writing to Dr. W. B. Caldwell, 481 Washington St., Monticello, Ill.

GERMAN ATTACKS U. S. OFFICIALS**Arrest of Stahl and Hardenberg Denounced—Charged American Officials Lied About the Lusitania.**

Berlin, June 15.—(Via London.)—The Vossische Zeitung comments as follows on the arrest of Helms Hardenberg, said to be a member of the German aviation corps, in connection with the investigation into the Lusitania disaster by the federal grand jury in New York:

"It is decidedly a remarkable manner of conducting an investigation that persons who make statements varying from those of American officials should be intimidated by arrest on suspicion of perjury."

Officials arrested at Lyons.

"The Tages Zeitung, speaking of the same case, remarks:

"And what of port officials who gave false testimony?"

The Tages Rundschau refers to

the arrest of Gustav Stahl in the same case and declares that Henderson is a laughing stock in asking if there is any system in it. This paper remarks whether it is a punishment about the mouth of or render suspicious in advance those witnesses who testify to anything against England and against America, while it is the armed Lusitania to leave port."

The Kreuz Zeitung, in the position accorded to the leading article, says that the arrest of Stahl and the sinking of the Lusitania and submarine international law in existence prohibits the arrest of German officials. This, the paper says, is a "very curious thing," and it is not even partially refuted by an American reference to the American official investigation.

The Count is Sarcastic.

Count Rosenburg's naval expert, has a sarcastic article in this morning's Tagesspiegel in reference to the arrest of Stahl. He says, by quoting the Lokal Anzeiger's remarks concerning the recommendation made to the government to arrest the count, that the German government desires war with the United States. Count von Rosenburg points out that articles somewhat similar in tone appeared in Monday morning papers and says the attitude of the government is a mutual electrical ignition station.

"It is a fact that no one in Germany is so calculated to give the impression that the chancellor's lack of will in taking the course he did under the pressure of outside influence, or because of temporary embarrassment. The task was an unenviable one as could be seen from the fact that the British system of party government would have been wanting in dignity and success."

VOTERS NAME COUNTIES UNDER PROPOSED BILL**State Senator Carlton to Introduce Measure Based on South Carolina Law.**

J. A. Carlton, of Moultrie, senator from the seventh district, who is registered at the Piedmont hotel, sees a modicum of hope for relief from the new county election upon the general assembly in a bill which he will introduce in the senate of the coming year, by which, he says, new counties may be automatically formed.

Judge R. L. Shipp, also of Moultrie, representative from Colquitt county, states Senator Carlton, will very probably introduce a similar bill in the house.

The bill is to be based upon the idea contained in the South Carolina law, which permits the citizens of a territory to constitute their territory into a new county automatically when they can qualify in population, wealth, distance from cities and sites and certain other particulars. The county is then formed upon permission from the governor and two-thirds of the voters living in the territory.

Senator Carlton is prominent in the affairs of his section. He is a member of the new Moultrie packing plant, toward the encouragement of which he has in the past been very active.

At the Piedmont are also registered Senator W. Miller, of Columbus, and Senator Miller is returning from the meeting at Athens of the board of trustees of the University of Georgia, which he is a member of.

Senator Steed states that the peach crop of his section is the largest and best in quality of several years, and is bringing better prices.

President O. T. Camp, of the Atlanta Retail Grocers' association, announced Tuesday that the stores of many members of the organization would begin this afternoon closing their stores at 1 o'clock on all Wednesday afternoons until September 1, as a half holiday.

"The housewives would do the shopping in the forenoon and the merchants would be doing their trading in the forenoon and it would not inconvenience them in the least," said Mr. Camp. "Let them consider how hard the clerks work for them throughout the week and they will understand why they want the half holiday."

Mr. Camp said he was going to the baseball game with the association on hand with their clerks.

WAR COSTS BRITAIN \$15,000,000 DAILY**Another Credit of \$125,000,000 Voted by Commons—Premier Asquith Talks of the Reconstructed Ministry.**

London, June 15.—The house of commons this afternoon voted another credit of £125,000,000 (\$1,250,000,000), making with previous sums a total of £825,000,000 (\$8,250,000,000) already allowed for war purposes.

Premier Asquith said in introducing the credit measure that from April to June 12 the expenditure has been £125,000,000 (\$1,250,000,000) daily. He estimated that the daily expenditure during the currency of the new credit would be not less than £1,000,000 (\$10,000,000) per day, which as the war extended its area, Great Britain's financial obligations to the allies would increase.

Asquith on Situation.

In a general survey of the situation the premier referred to the reconstruction of the government. He declared he would not have been justified in taking the course he did under the pressure of outside influence, or because of temporary embarrassment. The task was an unenviable one as could be seen from the fact that the British system of party government would have been wanting in dignity and success.

In our history, the premier said, without parallel, which would make upon the patience and foresight of the government, the reconstruction of the government in the one in the other could not be measured by any other standard. The national policy remains unchanged—this war at any cost to a victorious issue.

Mr. Asquith said he had decided, slowly and reluctantly, but in the end without doubt, that what was necessary was such a broadening of the basis of government as would remove even the semblance of a one-sided or party character. He continued:

"This would demonstrate beyond all possibility of doubt, not only to our people at home and across the sea, but to the whole world, that our enemies and neutrals—that after years of adherence to their respective and vicissitudes, the British people are more resolved than with a whole heart and one purpose, obliterating all distinctions of party, to stand by personal and political, as well as every material and moral, force in the prosecution of our case."

American Loan Suggested.

In the debate on the credit Ronald McKenna made his maiden speech as chancellor of the exchequer. He urged the necessity of economy.

Sir Frederick Bantley said he had heard the chancellor's speech and he had been the champion of the United States, a step of which he approved.

Dorothy Collins suggested a central body to collect American securities in this country, which then would be changed for government script and securities sold in New York to pay for supplies received from the United States.

ROTARY CLUB WILL BOOST PLAZA PLAN

A move was put on foot by the Rotary club at the request of the meeting in the Piedmont hotel, to prevail upon the legislature personally to construct the new city hall. A committee will be appointed, and activities begun at early as the session goes into session. The meeting was well attended. It was the last over which Bert Adams, the president, will preside. The annual election of officers will be held at the next regular meeting.

SILENCE IS KEPT IN BRITISH PARLIAMENTS**Premier Asquith Says No Questions Can Be Answered, But States the Straits Will Be Forced.**

London, June 15.—There have been so many rumors recently that the allies had forced the Dardanelles that Sir James H. Dalziel asked Premier Asquith today in the house of commons if there was any truth in the reports.

"None whatever," was the reply. The premier said it was not in the public interest to say anything now about the Dardanelles.

"The operations are of the highest importance," he added, "and they will be pushed to a successful conclusion."

London, June 15.—The following official announcement, concerning the Dardanelles operations was given out here today:

The situation on the Gallipoli peninsula has developed into trench warfare. After our success on the fourth instant the Turks have evinced a great respect for our offensive, and by day and night have endeavored to submit to capture in trenches.

On the morning of the 13th-14th of June, two regiments of a British regular brigade made a successful attack on the advanced Turkish trenches and after severe fighting included the killing of many snipers, succeeded in maintaining themselves in spite of bombs, in the captured position.

On the morning of the 13th, a counter attack was made by the Turks, who rushed forward with bombs, but coming under the fire of the naval machine gun squadrons were annihilated. The force of the attack, thirty dead bodies were counted in front of our trenches. "The situation is favorable to our cause, but it necessarily shows an account of the difficulties of the ground. The Turkish offensive has sensibly weakened."

OPERATORS SILENCE AS THEY READ IT

From One End of United States to Other—Joke That Really Is No Joke.

The following joke, which is by no means all a joke, appeared in a recent issue of The Telegraph and Telephone published in New York City. An operator in Nashville, Tenn., instead of sending his good money in purchasing a transmitting device, bought a bottle of what is known as Vitalitas, and according to a newspaper report after he had done so, he was told by the operators on his wire break in to inquire what he has done to increase his strength.

The operator's question is Mr. Elmer Converse, of 1512 Shelby Avenue, Nashville, with the Postal Telegraph Company, of that city. The article which inspired the quip in the Telegraph and Telephone was the following interview with Mr. Converse, which was published in several papers:

"All the operators want to know what I have done to increase my strength. I am on my third bottle and it has done me more good than any medicine I have ever taken. I make this statement for my friends whom I wish to help."

Vitalitas is an attractive world-wide attention. It is the greatest tonic and corrective and is bringing new health and vigor to the people who suffer with indigestion, nervous debility, rheumatism and other ailments. It is the only tonic that does not delay its use. The display and sample Vitalitas at Jacob's Pharmacy, or write there for information.—(Adv.)

There is in the British Museum a Babylonian clay tablet dating back to B. C. 2300-2150, and is therefore approximately contemporaneous with Abraham, who, at that time, was residing in Chaldea.

The tablet in question states: "Ikbi-Istar bought a lot adjoining the 'beer house' (Bit Sikari) owned by two brothers Sin-abu-su and Nur-ili-su."

This Bit Sakari "beer house" is perhaps the first recorded mention of the modern cafe other than places where wine only was sold.

The Coffee Problem

Do you know what it is?

It's caffeine—a poisonous and powerful nerve irritant—about 2½ grains to the cup of coffee.

Listen to what physicians say:

"Coffee and tea are poisonous drugs. The caffeine they contain is of the same nature as uric acid. They impair digestion and produce various disorders of the nerves."

If you haven't suspected coffee as the cause of headaches, biliousness, heart-flutter or sleeplessness, suppose you test the matter by a change to the pure food-drink, **INSTANT POSTUM**.

There's no caffeine nor any harmful substance in this delicious beverage—just the nourishing elements of wheat, roasted with a bit of wholesome molasses—with a snappy flavour similar to that of mild, high-grade Java.

RED MEN AT ATLANTA FOR ANNUAL COUNCIL

Canton Contingent at Work Seeking to Land 1916 Convention—Head of Order Here.

A great good word of several hundred Red Men was held in Atlanta yesterday evening preparatory to the annual great council to be opened this morning. All day the local chiefs were engaged in welcoming the hundreds of delegates who had taken the trail for Atlanta from the hunting grounds of every part of the state at the call of Great Sachem J. R. Miller, Nickajack, No. 29, Marietta.

The most notable among the newcomers were the representatives of the Nimmerwolf tribe, Canton. They arrived early and were soon smoking the meditative pipe with local and visiting Red Men concerning their proposal to entertain in the great council of 1916 in Canton. Many remembered the district conventions and other functions among the Red Men which this tribe had handled with so much hospitality and enthusiasm, and expressed the belief that the next council would be held there, although Macon and Savannah are making a strong fight for this honor.

JITNEYS AS TAXIS MUST OBEY THE LAW

The state railroad commission, in its recent ruling holding that jitneys are common carriers, does not contemplate relieving any motor vehicle operating upon regular schedule from regulation on account of its mere technicality.

It was called to the attention of the commission on Tuesday that in some Georgia cities some former jitneys are now "taxis," but the commission's ruling, however, does not refer to the regulation of "jitneys," but to "motor vehicles" running upon schedules or over definite routes.

FLAG LEAGUE OUTS ITS SECOND HALF

Starts June 23, Ends August 6.
Forty Games of Fifty.

The F. L. A. G. league has cut its playing season, according to an announcement made last night by President Dick Jemison.

Only forty games will be played in the second half season, instead of fifty as previously arranged, the second half season starting June 23 and ending August 6 instead of August 13, as previously arranged for.

Instead of making two trips to each city in the league one of three games and one of two and receiving a similar visit from all the teams, each team will play one series with each other team at home and abroad, four games in the series.

This change reduces the mileage to be traveled nearly 7,000 miles and will prove a big saving to the league in this, one of the heaviest, if not the heaviest, year that baseball teams have had to contend with.
